

# CONGRATULATIONS ON YOUR GOVERNMENT FUNDING AWARD

When you receive government funding, you're not getting free money. The government expects you to meticulously track your spending in compliance with [Federal Acquisition Regulations \(FAR Part 31\)](#), as well as your funding agency's supplemental regulations. Failure to maintain proper timekeeping processes, project cost reporting, and monitoring indirect cost rates [can lead to a very expensive education!](#)

Your start-up received government funding from the DOD, DOE or NIH.

You subscribe to QuickBooks Online (QBO), [but it doesn't produce two key reports you need.](#)

The government wants:  
1. Job Cost Report  
2. Indirect Rate Calculation

## YOU NEED AN EXPERT

With over 40 years of government funding award accounting experience, clients from coast-to-coast, and over \$5 billion in awards managed, Jameson knows the agencies and regulations—and how to help our clients avoid the pitfalls.

We connect your QBO to our proprietary technology, JamesonWorx, to enable FAR Part 31 compliance.

You get training on how to use your system properly and access to Jameson accounting experts.

We produce your Job Cost Report and Indirect Rate Calculation to ensure you're FAR Part 31 compliant!

## WE GET YOU READY FOR PHASE II

If you'd like to talk to a government funding award accounting expert, call Kevin Lehan at **781-862-5170 (x1)**, email him at [kevin@jamesoncpa.com](mailto:kevin@jamesoncpa.com), or [schedule a call now](#).
